PROJECTS

Founder & Software Engineer - Ora: AI Training Coach (Orbi Labs LLC) **Jan 2026 - Present**
Flutter, Dart, Firebase, Cloud Functions, Firestore, SQLite, Claude API, iOS/Android

- Founded Orbi Labs LLC and built Ora, an AI training coach across lifting disciplines (powerlifting, bodybuilding and more) for iOS, Android and web, as its sole engineer: 570+ merged pull requests and 1,200+ automated test files, with builds shipping to TestFlight and Google Play testing for 10+ beta testers.
- Built the account and social backend on Firebase with 86 deployed Cloud Functions: email, Google and Apple sign-in, unique usernames, account deletion, friends, groups with invite codes, push notifications and a weekly leaderboard.
- Designed an offline-first SQLite store with 97 versioned schema migrations for sets, reps, RPE, load, rest and soreness, feeding deterministic progression engines; Firestore holds account and social data.
- Built “Orbi,” a Claude-powered coach served from a Cloud Function that routes everyday chat to a fast model and program reviews to a larger one, with prompt caching and per-user and monthly spend caps.

EricOS: Personal Automation and Agent-Orchestration Hub **Sep 2026 - Present**
TypeScript, Node.js, React, Python, LLM coding agents, Linux

- Built a local command center (TypeScript, Node.js, React) that runs 20+ scheduled automations, including a morning brief, school-deadline reminders and a job scan, with a dashboard reachable from my phone over Tailscale.
- Built a daily job-scan pipeline that sweeps 527 Greenhouse, Lever and Ashby company boards plus tracker lists (3,300+ postings), fetches each posting to drop closed or scam listings, and ranks new ones by fit with an LLM.

Founder & Head Developer - Multiplayer MMORPG (Roblox) **Jun 2021 - Aug 2023**

- Solo-built, released and marketed a multiplayer MMORPG (781 visits, 28 testers): event-driven client/server systems and session-locked player persistence across 100+ gameplay, UI and server scripts.

LEADERSHIP & EXPERIENCE

IEEE Signal Processing Society @ UF - Chief of Operations **May 2026 - Present**

- Manage operations for a 450+ member IEEE technical organization: officer workstreams, recurring workshops, speaker logistics and member communications for events with speakers from NVIDIA and Microsoft.

NEXUS Online Education Agency - Founder & Operations Lead **Jan 2024 - Dec 2024**

- Built course funnels, Stripe payment flows, email automation and a Google Sheets CRM (ad spend, cost per lead, close rate) for 2 client partners.
